

Shreya Srivastava

AVP – Technical Product Owner · Fraud, Identity & Platform

+91 9585581862 shreya.srivast@gmail.com linkedin.com/in/shreyasrivast github.com/shreeyaa-srivastav

Pune, India · Open to Global Roles · 90-Day Notice

PROFESSIONAL SUMMARY

Product leader with **6+ years of cross-functional product management experience** delivering data-driven outcomes in regulated financial services. Owned fraud dispute, identity verification, and compliance platforms for US banking customers across 12M+ accounts. Drove **\$880K+ annual savings**, **\$25M+ revenue**, and **\$5M+ in regulatory risk avoidance**. Youngest promoted to AVP in cohort. Actively building AI/ML product fluency — hands-on with LLM fundamentals, RAG pipeline design, and ML prototyping in Python.

EXPERIENCE

Barclays

Jul 2019 – Present · Pune, India (US & UK Markets)

Progression: BA3 (Jul 2019) → BA4 (2022) → **AVP (Sep 2024)** — youngest promoted in cohort

AVP – Technical Product Owner · Fraud & Dispute Management

2022 – Present

- Led vendor evaluation across 3 platforms; onboarded real-time fraud alerting system — cut agent manual dependency **45%**, saving **\$880K/year**
- Owned full backlog for 15-member scrum team supporting **~200 US agents**; migrated Visa/MC chargeback workflows to PEGA — SLA adherence **+35%**, agent throughput **+50%**
- Self-initiated FICO platform consolidation — pitched to director, secured funding — delivered **14 FTE savings/month** and **40% reduction** in agent calls
- Identified Claude AI as delivery accelerator; compressed 7-month API programme to **6 weeks** — saving **~440 developer-days** (78% effort reduction)
- Presented roadmap and business cases to **20+ senior stakeholders** across US & UK; secured programme approvals end-to-end with full audit and compliance sign-off

Product Analyst · Identity & Verification

2019 – 2022

- Sole PO for **GAP PLCC** digital onboarding — 12M+ customers across web, mobile, and IVR — generating **\$25M+ in new cardholder revenue**
- Delivered ACH/Reg E compliance controls for **\$5B+/month** transaction pipeline, preventing **\$5M+** in annual penalty exposure
- Designed fraud detection controls preventing **\$2M in fraud losses** and delivering **\$440K+ profit uplift** — first BA4 to independently own a fraud use case end-to-end
- Automated PACER password rotation across 42 APIs and batch services — **zero downtime** on first production delivery; closed ORAC/CSO audit risk across full service estate

Business Analyst · Fraud Detection Platform

2019

- Joined as backend developer; proactively transitioned to BA within first year — built configurable SIM-swap fraud rules for UK customer base across non-monetary and card transactions

SKILLS

Product & Strategy	Roadmapping · PRD/BRD · MVP Definition · Backlog Ownership · Prioritisation (RICE/MoSCoW) · KPI Design · Agile/Scrum · Sprint Planning
AI/ML (Building)	LLM Fundamentals · RAG Pipeline Design · Prompt Engineering · Python · XGBoost · scikit-learn · Pandas · LangChain (learning)
Domain	Fraud & Dispute Resolution · Identity Verification (KYC/KYB) · ACH/Reg E Compliance · Visa/MC Chargeback · PEGA · Data Privacy (DPIA)
Tools	JIRA · Confluence · SQL · Figma · Git · GitHub · Excel · Power BI (learning)

AI / LEARNING PROJECTS

Financial Insights Generator **IN PROGRESS** · Python · OpenAI API · Prompt Engineering · JSON structured output

LLM pipeline generating plain-language spending insights from transaction summaries — exploring chain-of-thought prompting and structured output schema design for customer-facing product integration.

Credit Card Fraud Detection **IN PROGRESS** · Python · XGBoost · scikit-learn · SMOTE · Kaggle (284K transactions)

ML classification model on imbalanced fraud dataset; engineering domain-driven features (velocity flags, amount z-scores, time-of-day bins) grounded in Barclays fraud PM experience.

EDUCATION & CERTIFICATIONS

B.Tech, Information Technology

2015 – 2019

Vellore Institute of Technology (VIT), Vellore, India

- **PEGA Certified Professional** — Pega Systems · Workflow & BPM Automation
- **Figma Essential Training** — LinkedIn Learning · Design & Prototyping
- **AI/ML Foundations** — In Progress · LLM fundamentals, RAG system design, scikit-learn, Mathematics for ML
